Making Global Logistics Easy

KGW Logistics is a Third Party Logistics service provider or 3PL, and we offer multiple services that facilitate the movement of parts and materials from suppliers to manufacturers and finished products from manufacturers to distributors and retailers. These services include ocean, air and land transportation, warehousing, and freight forwarding. After years of continuous growth, we are now acting as a major player in our line of business in the Asia Pacific region.

Being an international logistics company, we have been moving ourselves from simply a traditional forwarding role into a provider of logistics & distribution services. Add to our combination of experienced people, competitive costing, operations infrastructure, geographic location and financial stability – we are able to provide our customers with the resources needed to become or remain leaders in their industries.

At KGW Logistics, we believed that we are only as good as our people. Our successes and growth for the past 12 years was linked to the principle that "people are our most valuable asset." This is truer today than ever. KGW's success as a firm, and the progress we have made in the logistics industry, is the result of the work, dedication and commitment of our employees. Our people are the ones to deliver on this commitment in the work they do every day.

This is why our people are also our best ambassadors and it is important therefore that they are proud to be a part of KGW. The business of logistics services and solutions is very much about people. Our people are regularly trained and developed to deliver superior services. By turning passionate employees into trusted brand ambassadors, we bring our strongest asset and our most vocal internal advocates in direct contact with our customer base.

We will continue to learn from each other and, together, aim for ever higher standards of excellence.

Your Trust, Our Commitment.
